

Blue Ocean Floor – remake 2025

Yes, it's here, my second campaign for the game Celeste!

Madeline is embarking another story, where she is in another world, with different realities.

She will overcome the harsh truth about herself, but are you ready for the journey??

Decided to remake the whole campaign so far, the maps were outdated and not polished.

This includes many changes and because of that, the old version 4.0.2 will be available for vanity's sake.

Chapters (3/18 finished)

CH1 – Separated, A side updated for 2025 version 4.1.

CH2 – Millennium, A side updated for 2025 version 4.2.

CH3 – Sunset Boulevard, A side updated for 2025 version 4.3.

CH₄ – ??

General Information:

You need to be familiar with most technical skills for my campaign.

If you haven't played the original game, PLAY IT FIRST, then come here!

If you haven't played my first campaign (Polygon Dreams), play it also, since it's easier.

Installation:

you can download with Everest installer and also manually - just put the ZIP file in the MODS folder, and load up the game with latest stable Everest API already installed.
